N/A, West Hills,

Beautifully designed and wonderfully updated, this Mid-Century marvel, in a prime West Hills location, is not to be missed. The open and bright layout is both functionally appealing and aesthetically pleasing, with modern upgrades to be found everywhere you turn. The new engineered hardwood floors, exterior and interior paint, and dual pane windows are just the start. The kitchen boasts new cabinetry, backsplash, custom built-ins, and top of the line appliances. The bathrooms have both been tastefully remodeled to match the style of the home. Outside, you'll find numerous fruit trees, a tranquil drought tolerant backyard, beautiful landscaping, and a patio area perfect for entertaining with custom made slide wire shades for added comfort. For those buyers more interested in the functional upgrades to the home, the list is almost too long to mention - new HVAC system, Tesla electric car charger, new tankless water heater, main sewer cleanout replaced, new French drain system installed, new gutters added, vinyl fence added, and to top it all off, the home has fully owned solar panels. If you thought it ended there however, this home has one more surprise in store. What was once a garage is now a state of the art sound studio, which can easily double as a home entertainment studio. Despite the converted garage, there is still more than ample parking, with enough room for 4-6 cars to park on the driveway. With countless elements sure to thrill the design enthusiasts and those looking for a turnkey

home, this home is a must see.
