Timeless architecture meets modern design. The Buff and Hensman FAIA "Everts House" has undergone a respectful renovation by owners who wanted to acknowledge the original architectural integrity while upgrading amenities and features for proper use today. This stunning home features an outdoor living area just on the other side of the double door entry way off Contour. Once inside, the design showcases ample space for seating and recreation. The walls of glass display the wonderful indoor-outdoor flow between the spaces. The stunning elongated rectangular shaped pool adjoins the outdoor living space. Sweeping South and West mountain and valley view's create a peaceful and serene environment to be enjoyed daytime or dusk. And, this is all before we enter the property. The years long renovation included restoring and maintaining original built-ins along with a thoughtful sourcing of updated materials, finishes and overall amenities. These included custom walnut kitchen cabinets by a local family-owned business, Bianca Serena Dolomite countertops, kitchen appliances by Miele, Sub Zero, Thermador and Bosch, skim coating interior walls, updated electrical and lighting, installing European oak flooring, updating hardware and installation of California Closets to name just some of the improvements. The pool was rebuilt, landscaping completely overhauled, and drainage added. This property is on a double lot allowing for a level of privacy that is often

hard to find. A flat outdoor sports and recreation area was created to increase the usability of the lot several fold. The owners have gone thru a 2.5-year process and now have architectural plans with zoning administration approval for a 1,200 square foot addition with an outdoor deck. If you're looking for the truly special architectural property that has it all, look no further.
