Residential on 0 Acres

N/A, Claremont,

Welcome to this sprawling one story ranch home on a generous corner lot in a quaint Claremont cul-de-sac. Enjoy the easy care drought tolerant landscaping with stone walkways and shady Claremont trees. Enter into a light and bright living and dining room with hardwood floors, a wood burning fireplace and a wall of glass sliding door overlooking your backyard. The gourmet kitchen is practically brand new. Custom designed and built by local GC Benjamin Fay Construction. Custom white cabinets, black quartz counters, and an oversized farm style sink. Off the kitchen is a recently built indoor laundry room with room for storage. Your family will enjoy 4 bedrooms with 3 full bathrooms. Plus a large separate family room with a wood burning fire place and built in efficiency kitchen. This floor plan is either for a large family; a couple with his and her offices; mother in-law suite, or an investor who could easily create three separate living spaces or units. The current owners have installed many energy efficient items since their purchase using CHERP (Claremont Home Energy Retrofit Program). This provided new HVAC system; windows; insulation in the attic and walls; and an

automatic awning over the sliding glass wall.
Living, dining, hallways and three bedrooms
have
hard wood floors and the family room and back
bedroom have polished concrete floors. All of
this and more with a 3 car garage and many
more upgrades.
The location is just steps away from the
Claremont Colleges, the Botanical Gardens,
shopping
and highly sought after Chapparal Elementary
School.
