Residential on 0 Acres

N/A, Upland,

Tucked at the end of a quiet cul-de-sac in The Colonies, this refined residence blends curb appeal with thoughtfully designed living spaces and seamless indoor-outdoor flow. The front yard is framed by a manicured lawn, mature shade tree, and clean-lined concrete walkways that lead to a covered entry porch with recessed lighting, architectural columns, and soft exterior uplighting that highlights the home's classic facade at dusk. Inside, the entry opens to rich engineered hardwood floors, crown molding, and recessed lighting, setting a polished tone throughout. Formal living and dining spaces feature plantation-shuttered windows with soft drapery and a statement chandelier anchoring the dining area. The kitchen is bright and refined, offering white shaker cabinetry with black hardware, quartz countertops, full-height quartz backsplash, and a center island with countertop seating. Warm wood floors and recessed lighting continue into the adjacent breakfast nook and family room all open to the kitchen. The family room features a central fireplace with custom built-in cabinetry and accented by a sculptural brass light fixture, while plantation shutters and open sightlines enhance the room's cohesive design. A downstairs bedroom features hardwood floors, crown molding, and plantation shutters, served by a nearby hall bath with a custom marble vanity, and matte black fixtures. Finally, a dedicated laundry room with shelving, built-in cabinetry, sink, and tile flooring. Upstairs, an

open loft with carpeting and crown molding provides a flexible space. The primary bedroom offers a spacious retreat with designer carpeting, crown molding, plantation shutters, custom curtains, and a ceiling fan. The ensuite bath includes a dual-sink vanity, glass-enclosed shower, and separate soaking tub. Three additional upstairs bedrooms feature crown molding and ceiling-mounted light fixtures and share a hall bath with a dual-sink vanity and tub-shower combination. The backyard is thoughtfully designed with an Alumawood covered patio featuring ceiling fans and integrated lighting. Paver hardscaping defines multiple outdoor spaces, including a built-in fire pit and a built-in BBQ with seating and prep sink. A manicured lawn and vine-covered privacy wall complete the setting. Additional improvements: Full interior paint, designer carpeting, new garage door with integrated camera and Amazon delivery compatibility, ADT alarm, new exterior lighting, and custom window treatments.
