N/A, La Canada Flintridge,

This serene home in the Foothills of La Canada Flintridge was built by the original owners. First time on market. The home has a very spacious feeling throughout. High wood beamed ceiling in the living room showcasing the raised hearth stone fireplace, hardwood floors and French doors leading to the covered patio and back yard. The kitchen is open to the dining area and living room. Granite countertops, hardwood floors, with a large skylight brightening up the space. There is a large family room with high wood beamed ceilings and built in bookcases and cabinetry. (family room added w/o permits, (approx 288 sq.ft.) There are three bedrooms whereas two of the bedrooms have access to a large deck. There is a separate laundry room off the kitchen with cabinetry and utility sink. Just beyond this area is a separate room with a sink and cabinetry that was used as a dark room by the owner. A very spacious 2 car carport along with a separate storage room. There is an additional parking area with gates that you can drive thru into the back yard. Another feature of this home that makes it unique is there are two separate workshops below the deck off the two bedrooms. Perfect for someone who either has a need for a workshop or other hobbies that require a place to work. Perhaps a good space for a private office away from the activities of the home And for those who enjoy having a wine cellar there is a space that the owners have used to make their own wine. The back yard is

spacious for expanding the home and/or
relandscaping to include a pool or other
garden projects. There is another additional
parking area in front of the workshop perfect

Perhaps once you see this home your will
realize you have reached your journey to your
new home.
