3 Bedroom, 2.00 Bathroom, 1,225 sqft
Residential on 0 Acres

N/A, Norwalk,

This home has been loved by the same family for 38 years! As children the kids remember the addition of the 3rd bedroom and 2nd bathroom because they got their own rooms and no longer shared a bathroom with the family. As adults they watched the continual upgrades made by their parents! In 2015 the roof was replaced, followed by the first set of solar panels and a new electrical 200 amp panel was installed. In 2018 the sewer line was replaced and a water softener was added. In 2022 a central heat and air system was added along with new ducting, vents and a walk-in tub/shower was installed. In 2023 an additional set solar panels was added with 8 modules and inverters. All solar is owned outright. In prior years new windows were added, the plumbing was upgraded to copper, the kitchen was redone and the covered back patio was put in, just to mention a few upgrades. This home has so many upgraded systems and is priced for a buyer to come in and make it their own! Golden opportunity for homeownership. Conveniently located near the 605 freeway, shopping, schools and mass transit. Your new home awaits you!
