2 Bedroom, 2.00 Bathroom, 1,510 sqft
Residential on 0 Acres

The Galaxy Towers (TGT), Long Beach,

The Galaxy Tower is one of the most iconic buildings in Long Beach, and one of the few oceanfront residences in Southern California with panoramic views, from Palos Verdes to the Queen Mary to Catalina to the Newport Coast. The views continue north to downtown LA, the Hollywood Hills, and the San Gabriel mountains. You can see snow capped mountains in one direction in the winter, and the glorious Pacific Ocean in another direction without even getting out of bed! In the summer, watch the fireworks up and down the coast, and enjoy spectacular sunsets year round. This is a huge unit, bigger than many houses in the area, at 1,510 square feet. The storage space is generous in the unit, and there is an additional storage closet just outside the front door. There are only 4 units per floor, and none have common walls. It's close to the vibrancy of Belmont Shore, the activities downtown, and it's across the street from the beach and Bluff Park. Owning a home in The Galaxy Tower is owning a panoramic view that few can claim. It's owning a location that is unparalleled in ocean front property in SoCal. The building recently had a new roof, washed all the windows in the complex (80 units x 25-ish windows each plus hallway windows!), and is replacing hallway carpets. Grab your piece of Long Beach history along the glorious coastline of Southern California.

Built in 1967
