N/A, Los Angeles,

Welcome to one of the most charming and innovative homes in the heart of Highland Park, the Chestnut House. This bright and modern 3 bedroom, 2 bath oasis has been thoughtfully renovated using locally sourced and recycled materials when available. You'll walk into an open concept living space with the fully renovated kitchen ideal for entertaining. You'll also enjoy a calm and relaxing primary suite with a designer ensuite and the fully paid solar panels will keep your utility bills to a minimum.

Several years were spent creating this special property embracing native plants throughout. The owners created an entire water conservation system which efficiently captures rainwater while utilizing gray water to keep more water on the property, reducing the volume of water required to maintain this remarkable garden. The Chestnut Home was on the Theodore Payne Native Plant Society garden home tour in 2022, and youâ€™ll love how its garden attracts many species of birds and pollinators bringing immense enjoyment to its owners while assuring a beautiful array of flowers.

Walking through this home youâ€™ll find a sense of calm and serenity. Minutes away from downtown, Pasadena and Glendale, this tranquil home is centrally located within close proximity to the 5, 110 and 101 Fwys. The laundry is conveniently located in its own

laundry room attached to the garage, without taking up valuable garage space. The two-car garage is equipped with a 220v charging station for your EV.
