5 Bedroom, 3.00 Bathroom, 3,283 sqft
Residential on 0 Acres

N/A, Granada Hills,

Investors dream. On an almost 10,000 sqft lot, This house would be great for someone to buy, improve, add ADU's, split the house up for separate living spaces, rent, multigenerational living...the possibilities are endless. The house was a five bedroom, three bath at the time of the current owner's purchase. They converted one of the bedrooms to be used as the primary closet. The home is currently 4 bedrooms because of the primary closet makeover rather than 5 as listed. There is also another room about 600 sqft that can be made into another bedroom or an entertaining room. The lot is so large there is room for expansion, or adding ADU's (along with adding one to the detached garage). The neighborhood behind this home does not have parking restrictions so plenty of parking is available around the home along with the current garage as well has a driveway inside the gate area that can fit a couple more cars. All of this and at the perfect time of year to work on a home and have it be ready by the spring!

Built in 1966
