Senior living - Rare opportunity for super practical TWO master suite home, which is ideal for multi-generational living or a live-in caretaker. The fully permitted spacious master suite addition has a sliding glass door to the backyard as well as an oversized walk-in shower and roomy walk-in closet. Located on one side of the house for privacy, the room has its own HVAC and wood-like floor tiles. The home features a spacious living room, as well as a practical kitchen and dining room combo. In the other wing of the house, there is another master suite with two closets and a walk-in shower, as well as two secondary bedrooms and a remodeled bathroom. There is a generous, low-maintenance backyard overlooking the greenbelt with large shade trees. The two-car garage also has an additional workshop area for a man cave or hobbies. The home has fully paid-for solar and an electric car charger, so power and "gasoline" are practically free.
